Applied for HRSA Rural Health Network Development Implementation Grant: Putnam County Care Connect

Quarter 2 of the 2019-2020 contract year was busy with the submission for the HRSA Rural Health Network Development Implementation grant. SJRRHN partnered with the Health Planning Council of Northeast Florida and SMA Behavioral Healthcare to implement in the Putnam County Care Connect (PC3) project.

SJRRHN looks forward to the release of Notice of Funding Announcements in 2020!

Opioid-Addicted Babies Cost US Health System \$500 Million Annually

Babies born addicted to opioid cost the U.S. health care system more than half a billion dollars a year, a new study finds.

Americans asked "Dr. Google" about HPV, hypertension, hiccups

The health questions for which Americans sought answers on Google most frequently this year were about reducing blood pressure, followed by ketogenic diets and stopping hiccups. Last year's most-Google'd health queries included questions about amyotrophic lateral sclerosis, endometriosis and how long marijuana can be detected in urine.

Framework for telehealth is emerging

A framework of laws, regulations and industry practices is emerging to support telehealth services, particularly to deliver mental health care and expand access to care in rural areas. The patchwork nature of state regulations as well as uneven reimbursement policies remain barriers to widespread adoption, but federal rules, state parity laws and standardized billing codes are clearing a path.
